4-compartment-trucks are not allowed to load Isononanic acid M and n-butyric acid.

Please also note the specific safety & security requirements of Chemiepark Marl available under the CPU section on our homepage www.chemicals.oq.com.

For safety reasons drivers must have adequate language skills in either English or German, otherwise access to the site might be denied.

Due to the tightening of the EU sanctions package against Russia, we do not accept vehicles with Russian or Belarusian licence plates. We are obliged to refuse loading / transport immediately. Forwarders for our transports whose company is more than 25% owned by Russia are excluded.

Please also note the additional requirements for this site available on www.chemicals.oq.com.

**Important information referring to required loading times at all OQ loading locations**

Unless otherwise agreed, all OQ loading locations require the following free loading times:

3 hours for regular loads (one product, one compartment vehicle)

5 hours for multi-compartment vehicles loading more than one product

3 hours per loading location for multi-compartment vehicles loading in different loading locations (e.g. loading one product in Oberhausen and one product in Marl)

For additional waiting time caused by OQ we will reimburse up to € 50,- per hour against a valid proof. Waiting time occurred due to lack of timeslot booking won't be reimbursed.
